Dr. Robert M. Nickel Joins Quantum Signal Team

(ANN ARBOR, MI) -- Robert M. Nickel has joined Quantum Signal as an associate engineer. Dr. Nickel is an expert in signal processing, and specializes in the area of speech signals and speaker identification. He will be assisting in a wide variety of areas at Quantum Signal, including intelligent algorithm and software development.

Dr. Nickel holds a MS degree in Electrical Engineering from Rheinisch-Westfälische Technische Hochschule (RWTH, Aachen, Germany), and a Ph.D. in Electrical Engineering Systems from the University of Michigan Ann Arbor. He has published and presented in a number of signal processing arenas, and is co-patentee of the sophisticated STIR pattern recognition technique. He has taught several advanced engineering courses, and was the developer of the University of Michigan Discrete Time Frequency Laboratory (DTFL) software package.

"We are very proud to have Dr. Nickel on the Quantum Signal team," says Dr. Mitchell Rohde, one of the companies co-founders, "His extraordinary talents in engineering mathematics as well as his ability to effectively communicate difficult concepts is a great compliment to the companies capabilities."

About Quantum Signal

Founded in 1999, Quantum Signal LLC is an engineering services company specializing in advanced signal processing and pragmatic algorithmic solutions for its automotive, aerospace, and biometrics clients. As a leader in this dynamic field, the Ann Arbor-based firm is transitioning exciting signal processing technologies out of the ivory tower and into a wide variety of commercial applications. For additional information on Quantum Signal, please visit our Web site at www.quantumsignal.com or call (734) 429 - 9100.
